mr8 PRICES REASONABLE.

The Old-fashioned Little Girl.

She flourished thirty or forty years ago.

She was a little girl till she was fifteen.

She used to help her mother wash the dishes and keep the kitchen tidy, and she had an ambition to make pies so nice that papa could not tell the difference between them and mamma's, and she could fry griddle-cakes at ten years of age, and darn her own stockings by the time she was twelve, to say nothing of knitting them herself.

She had her hours of play, and enjoyed herself to the fullest extent. She had no very costly toys, to be sure, but her rag doll, and the little bureau and chair that Uncle Tom made, were just as valuable to her as the twenty-dollar wax dolls and elegant doll furniture children have nowadays.

She never said "I can't" and "I don't want to," to her mother, when asked to leave her play, and run up stairs and down on an errand, because she had not been brought up in that way. Obedience was a cardinal virtue in the old-fashioned little girl.

She rose in the morning when she was called, and went out in the garden and saw the dew on the grass, and if she lived in the country, she fed the chickens and hunted up the eggs for breakfast.

We do not suppose she had her hair in curl-papers or crimping-pins, or "banged" over her forehead, and her flounces were no trouble to her, and she did not know that there was such a thing as a bustle.

She learned to sew by making patchwork, and we dare say she could do an "over-and-over" seam as well as nine-tenths of the grown-up women can do one nowadays.

The old-fashioned little girl did not grow into a young lady, and talk about beaus before she was in her teens, and she did not read dime novels, and was not fancying a hero in every plow-boy she met.

She learned the solid accomplishments as she grew up. She was taught the art of cooking and of keeping a house. When she got a husband, she knew how to cook him a dinner.

She was not learned in French verbs, or Latin declensions, and her immediate neighbors were spared the agony of hearing her pound out "The Maiden's Prayer," and "Silver Threads Among the Gold," twenty times a day on the piano, but we have no doubt she made her family quite as comfortable as the modern young lady does hers.

It may be a vulgar assertion, and we suppose that we are not up to the times, but we honestly believe (and our opinion is based on considerable experience, and no small opportunity for observation) that when it comes to making a family happy, a good cook and housekeeper is to be greatly preferred over an accomplished scholar. When both sets of qualities are found together, as they sometimes are, then is the household over which such a woman has the control, blessed.

The old-fashioned girl was modest in her demeanor, and never talked slang or used by-words. She did not flirt. She did not laugh at old people or make fun of cripples, as we saw some modern little girls doing the other day. She had respect unto her elders, and was not above listening to words of counsel from those older than herself.

She did not think she knew as much as her mother, and that her judgment was as good as her grandmother's.

She did not go to parties by the time she was ten, and stay till after midnight playing euchre, and dancing with any chance young man who happened to be present.

She went to bed in season, and doubtless said her prayers before she went, and she slept the sweet sleep of innocence, and rose in the morning happy and capable of giving happiness.

And if there be an old-fashioned little girl in the world to-day may Heaven bless her, and keep her, and raise up others like her.

Two Hartford Tuetons had a quarrel the other day. The one who stood on the sidewalk, shaking his fist at his brother in the store, appeared to be the most indignant of the two, for he shouted, "You come out here and I knocks your head off." "You knock my head off?" said the other, earnestly and philosophically; "den I no comes out." There was logic in his reasoning.

New York *Commercial*: He was a venerable and agricultural-looking man, attired in the latest New Jersey fashion, and he stood on a street corner near Washington market. Holding up his left hand, and gazing reflectively upon three pieces of string tied around an equal number of fingers, he soliloquized: "That's to remind me—get a spool of cotton; t'other means don't forget the calico. But whatin thunder's this one for? Ah, by gum! that's don't get drunk again!"

A small boy in Belfast, whose deportment at school had always ranked one hundred per centum, came home one day recently with his standing reduced to ninety-eight. "What have you been doing, my son?" asked the mother. "Been doing?" replied young hopeful; "been doing just as I have all along, only the teacher caught me this time."

From the Detroit *Free Press:* Nature may have intended man to drink water. It looks that way from the fact that she will freeze up the water-pipes on the slightest occasion, and never meddle with a barrel of whiskey when she can help it.

The *University Missourian* says: A sparkling young debater, in a flight of eloquence exclaimed: "Mr. President, the world is divided into two great classes, the learned and the unlearned, one of whom I am which."

It is noticeable how very quiet and demure she looks on Monday morning, as if utterly oblivious of the smacking good time she enjoyed on the previous evining, when Moses was there and the lights went out.

When you have a family jar you can't always preserve the peace.

HOOLE & ELLIOTT.

BODIE MINES.

Never on the Pacific coast has any mining district attracted so generally the attention of mining men, and of the great mass of our people, as that of Bodie. All eyes are anxiously turned toward us, watching the report of every foot of drift that is made, or shaft sunk. And in proportion, as the prospects for rich bonanzas are increased, their hopes and spirits rise or fall. Fortunate it is for all concerned, that their faith is well founded. The brilliant prospects obtained in every mine on the lead, and the actual rich strikes made in the Mono, the Bechtel, the Blackhawk, Booker, Addenda, and several other of our mines outside of the Bodie and Standard, that continue to improve and make promise, a certainty of showing up the largest and richest ore body ever developed on the Comstock, that up to this time has stood first on the list of bonanza producers. For nearly two miles, the Bodie mines have been opened, and though in some instances but partially developed, yet the fact is established that all on the lead have an assurance of opening up good paying mines. And those already in good ore from their location, and following the lead from point to point to its connections with the Standard, clearly proves that when fully uncovered, the bonanzas of Bodie will far exceed in extent and value the rich bonanzas of Virginia City. The science of mining has now arrived at that point of perfection, that an expert can scarcely be deceived. The kind and character of rock, the formation of walls and ledge or ledge matter, the stringers of quartz, always tending to the main ledge, or if between the walls, to a body of ore, are guides that never fail, as proven by the experience of years. Therefore we say, having all the favorable indications, Bodie Mining District to-day stands first on the list of dividend paying mines, and prospective dividends in two or three months, and of claims not fully opened, whose prospects are favorable for developing into paying mines. The outlook for the future of Bodie could not be more promising, and all who have cast their lot with us are assured of a rich reward.

THE N. Y. "SUN" TALKS PLAINLY.

The New York *Sun* of March 31st says: General Grant is studying the people of different countries in the Old World to learn how people can be permanently ruled, and he is studying monarchical Governments to learn how a monarchical government may be established in the United States. This is no imaginary dream. We point to a real danger. Grant is not like Washington. He was not content with the highest military rank ever conferred upon the Father of his Country, but craved and obtained higher. He is not content with two terms of the Presidency, which satisfied Washington and all his successors, till Grant. He wants a third term. He wants to be Emperor. Grant is not an unselfish patriot like Washington. He rather resembles Alexander or Napoleon, and has an unbridled ambition, which already menaces the liberties of his country.

Of the 500 pounds of gum chewed during the past year by the lady teachers of the First and Fourth Ward schools in this city, one-half of it can be found to-day sticking under the many desks of the schools referred to. The other half was carried away and lost by the young men who go courting.—*Virginia Stage.*

Cruel Stager! Aren't you ashamed! Were you mittened, that causes you to play traitor to your schoolmarms? Or are the *Stage* printers bar'ed from the sacred precincts?

J. A. Herne, a well-known miner of Nye County, has mysteriously disappeared from Belmont. The Belmont *Courier* says he has been searched for by citizens in every direction but without success. It says further that Herne had considerable money at the time of his disappearance.

COST OF THE CENSUS OF 1880.

Preparations toward making the next the most correct and elaborate of any census ever taken, are being pushed in Washington. The table below, prepared with great care at the Capital, gives the cost of each census since the foundation of the Government and the number of people returned by the enumeration:

Year.	Population.	Cost.
1790	3,029,214	$44,372
1800	5,308,483	66,976
1810	7,239,881	176,727
1820	9,633,822	209,590
1830	12,866,020	400,511
1840	17,097,240	918,853
1850	23,191,856	1,414,104
1860	31,443,321	1,961,029
1870	38,558,371	3,347,962

Assuming that the same ratio of increase will apply for the last half of the present decade as in the first, the Western States, including Nevada, have gained something like twenty per cent.

March Dividends.

The following local incorporations disbursed dividends during the past month, as annexed:

Name.	Rate.	Amount.
Anglo-California Bank	4 ₱ cent	$60,000
London & San Fran Bk	2 ₱ cent	60,000
First National Gl'd Bk	8 ₱ cent	13,333
San Fran Gaslight Co.	¾ ₱ cent	75,000
Spring V Water Co.	8 ₱ cent	53,333
Commercial Ins Co.	1 ₱ cent	2,000
Home Mutual Ins Co.	1 ₱ cent	3,000
State Invest'nt Ins Co	2 ₱ cent	4,000
California Powder Co.	1 ₱ cent	15,000
Giant Powder Co.	1½ ₱ cent	9,000
Atlantic Powder Co.	½ ₱ cent	4,000
City Railway Co.	50c ₱ share	4,009
N Beach R R Co	½ ₱ cent	5,000
Sutter Street R R Co	25c ₱ share	2,500
Eureka Con M Co.	$2 ₱ share	100,000
Idaho Mining Co.	$5 ₱ share	15,000
Monarch Mining Co.	$1 50 ₱ share	15,000
Ontario Mining Co	5?c ₱ share	50,000
Standard Con M Co.	50c ₱ share	50,000
San Fran Stock Board	$25 ₱ seat	1,250
Total		$541,916

The output is very small, all things considered, but the outlook is favorable for an increase of mining dividends in the near future. If the Bodie district comes up to expectations the mining community will take a new lease of life.—*Stock Report.*

NEW TO-DAY.

GEO. W. ELDER'S

FAST FREIGHT LINE

—FOR—

AURORA, BODIE

—AND—

For Spring style of Hats go to Koppel & Platt's popular Clothing store.

Just received at Koppel & Platt's popular Clothing store an elegant assortment of men's shoes of all description.

MINING NOTES.

The testimony thus far taken before James T. Boyd, Referee in the case of the Justice Mining Company against Schultz and Von Barger, President and Treasurer of the company, to recover the $250,000 paid by the Alta Mining Company at the time of the settlement of their troubles November 16, 1877, shows that Dan Cook gave his individual check for $100,000 and Mr. Derby's note in favor of Herman Thee, indorsed by Seth Cook for $100,000, and another note of the same nature at six months for $50,000, which have been paid. These men were afterwards reimbursed by the Alta company, which paid Seth Cook the money. The payment was made to Mr. Schultz. The testimony is not concluded.—*G. H. News.*

The *Times-Review* says: It is currently reported that a ten or twenty-stamp mill will be built here this Spring. The parties who are considering the project have ample means, not only to build the mill, but to carry on the business of purchasing ore to keep it employed after it is built.

The Paradise Mining Company shipped two car-loads of ore to the Rye Patch mill to-day. This is the last shipment on the contract, and it is said the company intend to build a mill near the mine and reduce the ore themselves.—*Silver State.*

The Martin White Company shipped fifteen bars of bullion from Ward last week valued at $14,277 52.

Miraculous Escape.

H. Decker, fireman of engine No. 23, fell from the gangway of his engine on Monday, near Cascade, while the train was rounding a curve. The 23 was the head engine, and the train was moving at the rate of fifteen miles per hour. Decker was discovered by the engineer of the second engine, lying by the side of the track, in the snow sheds. The train was stopped, and he was picked up in an unconscious condition. Severe contusions of the scalp and on one leg were the extent of his injuries. He was brought to Truckee and his injuries were dressed by Dr. A. J. Pedlar, railroad physician, who pronounced his bruises superficial, and in no degree dangerous. Monday evening he was sent to the hospital at Sacramento, but expects to be around all right in a few days. Decker has no recollection of falling, and is in no way able to account for the accident. His escape from death is almost miraculous.—*Truckee Republican.*

Reinstein & Wolf are giving away their dry goods. A word to the wise is sufficient.

Reinstein & Wolf are selling better cigars and for less money than the same brands can be purchased in San Francisco.

DOMESTIC NEWS.

SALT LAKE, April 2.—On Saturday last, a Mormon mob, led by Bishop Lyman, candidate for the Legislature, came in, and by threats, compelled the County Clerk to issue certificates of election to the Mormon candidates. They then took forcible possession of the Court-house and county records. The mob numbered about sixty, while there were but three Gentiles present at the time of the capture. The County Clerk, who arrived here to-day to take legal proceedings against the mob, says he signed the certificates under threats of death.

SACRAMENTO, April 2.—The coursing of the Sacramento Club to-day was held at Whitcomb's ranch, twelve miles south of the city. Following is the result of the matches so far as run: Devlin's Pride of the Canyon beat Odell's Red Cloud; Harlow's Irish Boy beat Sheehan's Fan; Kelley's Black Jack beat Larkin's Nelly; Lyman's Cosmo ran a bye; Sumner's Spotted Tail beat Nichols' Duchess. In the second time over, Nell Flaherty ran a bye; Tenbroeck beat Mollie; Whitie beat Frank; Sacramento Belle beat Bulldozer; Mollie McCarty beat Tom Moore; Bradley ran a bye, and Pride of the Canyon beat Tige. There are yet thirteen courses to be run to-morrow.

CASTROVILLE (Monterey county), April 2.—An unknown man was found dead in a freight car at the Southern Pacific Railroad depot this morning with a shot through his head, and a six-shooter pistol, with three charges out, lying in his lap. An inquest was held here to-day before Acting Coroner Childs, but nothing was developed as to the man's identity. Deceased was about forty years of age, five feet five inches high, and weighed about 130 pounds. Some water-color paints were found on his person, and also a note stating that he was a stranger, and that what he had been would never be known.

SAN BUENAVENTURA, April 3.—In the case of Jesse Jones, the recalcitrant witness who has been under examination on a charge of the murder of W. T. More, Justice Carlton this morning decided that the action taken before him was not a proper one, and he had no jurisdiction of the case. Nevertheless, as the District Attorney had stated that he should not apply to the District Court on Wednesday for an order revoking the dismissal of the indictment against Jones, he should commit the prisoner until that day. The charges of arson and perjury will now be proceeded with.

SEATTLE (W. T.), April 3.—Dan Hines, a settler in the Skagit valley, was capsized one day last week while attempting to cross the river in a canoe and drowned.

A month of the most disagreeable weather, comprising daily storms of wind, rain, snow and hail, has just ended, and the prospect is now good for fair weather. The farmers are busily engaged preparing for the summer's crops, which are expected to be much greater than ever before.

LOS ANGELES, April 3.—At the Rincon, near the San Gabriel Mission, on Saturday, Lewis Leonard met a Mexican named Poncho Alvisa. Bad blood existed between them, and when Leonard applied some offensive names to Alvisa the latter shot him through the breast. Leonard then went to his wagon and got a pistol and shot Alvisa through the body. Both parties are supposed to be fatally wounded.

LATE NEWS.

SIOUX CITY, April 1.—Startling reports have been received here of the destructive prairie fires up the Big Sioux Valley and throughout Southern Dakota. The fires on Saturday were of unusual force and destructive beyond precedent. The poles on the telegraph line on the Sioux City and Pembia Railroad have been burned, so that the line has been down and reports are meager from that quarter. A merchant of Eden, in Sioux City to-day, tells harrowing tales of losses in that quarter. On Saturday from his store-door, the town occupying an elevated position, he counted thirteen farmhouses in flames, and he says more than forty farmers in that vicinity have lost everything—houses, barns, hay, seed-grain, etc. The flames traveled with such rapidity that the people were unable to save anything. Immense damage has been done, and the hardship to settlers is particularly severe. The grass grew very rank last year, and the protracted dry spell has made it a powerful auxiliary to the flames.

DETROIT, Mich., April 2.—The baggage car and first coach, engine and tender, of the east-bound night express train on the Grand Trunk Railway ran into a ditch, two miles from Smith's Creek, on Saturday night. A brakeman was killed instantly, and a fireman was severely scalded and died last night. The accident was caused by the removal of a rail. Two section men, recently discharged, have been arrested on suspicion of being the guilty persons.

CHICAGO, April 2.—Political matters here are decidedly mixed, with probabilities in favor of the success of the Democratic city ticket next Tuesday, ex-Representative Carter H. Harrison being at the head of the ticket for Mayor. The Republicans are making a lively campaign, and if they continue they may overcome the odds, which at present seem heavily against them. The Socialists have a candidate up, and will probably poll nearly 8000 votes, which come largely from the Republicans.

LATER.—CHICAGO, April 2—1:30 A. M.—The returns give Harrison 22,356; Wright 19,063, and Schmidt about 8,500. The whole city Democratic ticket is elected by a majority probably ranging from 3,500 to 4,500. The vote on Aldermen cannot be given, but the Socialists elect several of their men. Some twenty precincts yet to hear from.

MILWAUKEE, Wis., April 2.—The election passed off very quietly. A light vote was polled. The Republicans elected ten out of fifteen Supervisors. The County Board will probably be Democratic by a small majority. This city gives Cole (Republican) for Judge of the Supreme Court over 3,000 majority. The vote to day shows large Republican gains.

ST. LOUIS, April 2.—The Republicans elected one Councilman and the Democrats five Councilmen. The new Council stands seven Republicans to six Democrats.

LITTLE ROCK, Ark., April 2.—The election was quiet. The Democrats elect four out of six Aldermen.

ST. LOUIS, April 3.—The trotting stallion Woodford Mambrino, that made such a fine record last season, died here to-day at the stable of his owner, R. C. Bate.

LITTLE ROCK, April 2.—A band of 20 armed men on Sunday entered the town of Fayetteville and fired volleys of shot into the *Sentinel* office and into the houses of several prominent citizens and left. It is believed they were taking their threatened revenge on the town for the death of the desperado Reed, who was killed at the jail. Nobody was hurt.

CHARLESTON (S. C.), April 3.—A man named Morgan was arrested here to-day while passing from the First National Bank with $20,000 in United States bonds and other securities, taken from the President's private room.

HARRISBURG (Pa.), April 3.—Efforts are making here among the friends of Don Cameron to give him a prominent place among the available candidates in the Presidential race. Several Republican members of the Legislature are outspoken for him, and believe things can be so shaped as to make the Pennsylvania delegation a unit in his behalf. A majority of the Senate and House are believed to be for Grant. It is stated that the Democratic members are almost solid for Tilden and Hendricks. Some Democratic politicians here distribute small cards bearing a likeness of Tilden and Hendricks, with the words beneath, "Gentlemen, be seated."

NEW ORLEANS, April 2.—The negro exodus continues in the northern part of the State. Rudely estimated it may be said that 10,000 negroes will have left by the time the fever of the emigration ends. A reduction in wages, owing to low prices in cotton is the main cause. They have no yield for the labor of last year, and see no prospects of an improvement. Some, therefore, leave on inducements held out by the railroad men from Kansas, and others act on the same species of animal instinct that impels one sheep to follow another. The fact is calamitous, and the lack of laborers will be keenly felt in the cotton parishes.

COAST ITEMS.

Monday's *Silver State*, with an exultation which cannot be concealed, publishes the following: Y. W. Hinkey brings glad tidings for bachelors. When he left Illinois, a week ago, arrangements were about completed to bring a car-load of healthy, corn-fed "Sucker" girl to this county. The young ladies have chartered a special car, and intend to leave Ottawa, Illinois, to-day. Miss Annie Leper has charge of the precious invoice, the greater part of which are destined for Paradise valley. It may reasonably be expected that all those girls, unless they are too fastidious, will get married within a year. There are at least 600 marriageable men, many of them in good circumstances, in the county, and it is not improbable, therefore, that the coming Summer will be a lively one for ministers and Justices of the Peace.

The *Silver State* learns that the farmers of Paradise Valley are despondent in consequence of the dry weather and the scarcity of snow in the mountains. The Paradise Valley Mining Company intend to build a mill this Spring, and Superintendent Williams has selected a site for the building.

Miners, get your checks cashed at Reinstein & Wolf's. Better clothing and for less money than at any other store in town.

Is there not some benevolent, handsome man who will present the NEWS office with a corkscrew? It is too bad to lose so much time getting at the "inards" of bottles sent us.

A friend, receiving advices from Texas, reports having had a very severe winter there. Spring, however, opens with bright prospects for the heaviest cotton, cereal and root crops ever raised in Texas. Great excitement exists about the Leadville mines in the neighborhood of Huntsville.

BODIE MORNING NEWS

FRIDAY, - - APRIL 4, 1879.

Webster Matched by a Woman.

In the somewhat famous case of Mrs. Bodgen's will, which was tried in the Supreme Court some years ago, Mr. Webster appeared as counselor for the appellant. Mrs. Greenough, wife of Rev. William Greenough' late of West Newton, a tall, straight, queenly-looking woman, with a keen black eye—a woman of great self-possession and decision of character—was called to the stand, a witness on the opposite side from Mr. Webster. Webster at a glance, had the sagacity to foresee that her testimony, if it contained anything of importance, would have great weight with the Court and jury. He therefore resolved, if possible, to break her up. And when she answered to the first question put to her, "I believe," Webster roared out, "We don't want to hear what you believe; we want to hear what you know!" Mrs. Greenough replied "That is just what I was about to say, sir," and went on with her testimony.

Adn, notwithstanding his repeated efforts to disconcert her, she pursued the even tenor of her way, until Webster becoming quite fearful of the result, arose apparently in great agitation, and drawing out his large snuff-box, thrust his thumb and finger to the very bottom, and carrying the deep pinch to both nostrils, drew it up with a gusto; and then extracting from his pocket a very large handkerchief, which flawed to his feet as he brought it to the front, he blew his nose with a report that rang distinct and loud through the crowded hall.

Webster—"Mrs. Greenough, was Mrs. Bodgen a neat woman?"

Mrs. Greenough—"I cannot give you full information as to that, sir; she had one very dirty trick."

Webster—Wnat was that, ma'am?"

Mrs. Greenough—"She took snuff!"

The roar of the court-house was such that the defender of the Constitution subsided, and neither rose nor spoke again until after Mrs. Greenough vacated her chair for another witness—having ample time to reflect upon the inglorious history of the man who had a stone thrown at his head by a woman.

Brudder Gardner's Opinion.

Sum folks hab got de impreshun dat de man w,at does de mos' whoopin' an' yellin', an' attracks de mos' 'tenshun, am de chap wot make de bigger pile o' cash, but doan' you belieb it! De empty wood-wagon makes five times the noise that the costly kerridge do. De burdock takes up ten times de room dat de tulip do, but de tulip hez de bulge on de burdock when it cums down to markit value. De modest man hez all de bizness chances dat de forward man hez; he keebs on gainin' de 'spect of de world, an', bimeby he crawls to de top of de hen-coop, while de blowhard will entar de ditch. Modesty am its own reward; it am de capital in de bank; it am de fust mo'gage on improved real estate; it am a putty fa'r sort o' 'ligion. Stan' back! Doan' try to git dar befo' all de res'. Doan' be shootin' off dem moufs for de simple aake ob usin' up yer spar' time. As de poet says:

"De big sunflower may rise above
De modest tater vine,
An' brag about its Sunday clothes
An' put on airs so fine;
But when de winter howls around,
An' snow lies at de doah,
De big sunflower, O! wha' am he?
De tater has de floah!"—*Atlanta Constitution.*

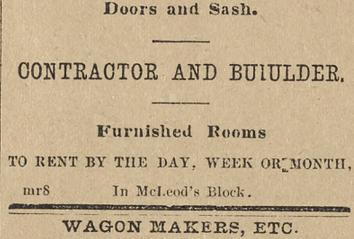
MEDICAL.

THE LATEST & GREATEST DISCOVERY,

Dr. J. De PRATT'S

HAMBURG FIGS!



A CRYSTALLIZED

FRUIT CATHARTIC.

A DISCOVERY OF THE GREATEST interest to the Medical Profession. A boon to every household. A most delicious laxative or purgative, prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land.

For Liver Complaints, Habitual Constipation, Indigestion, Dyspepsia and Piles,

they are a specific. To travelers by sea and land they will be found invaluable; they are positively unfailing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy.

For sale by every Druggist and Grocer throughout the United States and Canada. Price, 25 cents a box.
